Palmares, Alajuela, Costa Rica

## Collaborations

### EBmarketeam

Updating and creating content for a website called "Nayudel.com" that was developed at "Bluehost.com" with "WordPress".

### TrueBite

Small business project that offers websites for small and large businesses built with languages like "java", "JavaScript" and technologies like "React.js" and "Bootstrap".

### Freelancer.es

Profile in which I make available my skills in both web development and logo design and content for social networks.

## Education

### Universidad Castro Carazo

Career that I am currently studying which awakened my desire to create and become a good programmer.

### Colegio Nocturno Palmares

Night education allowed me to be doubly productive so that I could study and also work to contribute to my household expenses.
